No. 8

Dear Sir Narayan

I send you the fair copy of the prospectus for your signature. I also send another copy which shows the alterations I have made in your draft. The alterations are I think unimportant though they are necessary so far as the Gujrati community is concerned.

I also send drafts (seven) of letters which I propose should be addressed to the different parties specified in red pencil at the top (left corner)

Kindly approve the drafts and say whether I should sign them

107

or you will - There are two views about this - Your signature will carry great weight of course - At the same time it is a question whether such signature should be made so cheap -

I saw Mr Gokaldas and the date is fixed by him -

I have called Bhajekar to the Behood this evening to ask him to undertake some part of the work - I hope my letter reaches him in time & he comes -

Yours sincerely

K K Chaphekar
